

## Website style

The style of the website I'm going to use Bootstrap template and plug in the images that I need for the website.

- The main page style will have navigation on top with the dark grey color and white text. Next will be image slide the size is 1900\*1080.
- Three adventure boxes, the style of that will also be darker gray for the title bar with white text as well. The boxes have a bottom, I'm going to use read color on it, so it's more obvious to see. The arrangement of the boxes will line it up horizontally, so they will be three in the row.
- Next section is the portfolio of our explore, merch and Threads. The style will be similar to the adventure boxes and change to other colors.

For the style of about page

- In about page has darker gray navigation with white text.
- The content section will have size 750\*450 image of the funder and the introduction on the right side of the image.
- Next to the image and the introduction will be the individual funder images, each funder images have their own box, the image on the top of box and the middle is their introduction and then the bottom is their email. The color of the box I'm going to use while colors for now, it may change.

Style of live chat page

- The darker gray navigation with white text.
- 1200\*300 image next to the title of the page
- The gray location bar
- Three option boxes in the row, the style of the box will be similar to the adventure box. The color of title section will base on the style of the gaming devices to change.

Style of contact page

- Navigation: same style with other page.
- The content section: one left side of the page will have location of the company on the map and on the right has the contact details with the black text.
- Messaging tool: for the boxes of full name, phone number, email address and the message. The outline of the boxes will be gray color with the thin line.

Footer:

- The style of the footer use dark gray color with the white text, and center alignment.
